3M™ Coban™ LF

Latex Free Self-Adherent Wrap

Product Description
3M™ Coban™ LF Latex Free Self-Adherent Wrap is a cohesive elastic wrap constructed from a nonwoven material and elastic fibers. The cohesive properties allow the wrap to stick to itself but not to other materials or skin. The product does not contain natural rubber latex. It is supplied non-sterile.

Indications for Use
Coban self-adherent wrap is intended for use as an elastic wrap to provide compression or support, or to secure dressings or devices. This product is not designed, sold or intended for use except as indicated.

Contraindications
None known

Warnings
1. Coban LF self-adherent wrap will not slip or loosen after application. DO NOT wrap too tightly to avoid impairing circulation and causing serious injury. The risk of impaired circulation is higher for children.
2. Monitor area frequently (no less than every 24 hours) for signs of swelling, discoloration, pain, numbness, tingling, or other changes in sensation. If these symptoms occur, remove wrap immediately and contact your Health Care provider.
3. DO NOT place Coban LF self-adherent wrap in direct contact with an open wound because it may lead to infection.

Precautions
1. When used as a component in a compression wrap system, it is important to ensure adequate arterial blood flow to avoid injury secondary to decreased circulation. Coban LF self-adherent wrap should be used as a component of a compression wrap system only under the supervision of a wound care specialist.
2. Do Not Reuse. Reuse may result in compromising product integrity and / or lead to device failure.

Directions for Use
1. Unwind approximately 12 inches of Coban LF self-adherent wrap from the roll and allow the wrap to relax.
2. Without stretching, apply one full wrap and overlap. Press overlapped area lightly to keep the end in place. See Figure 1.
3. Proceed with wrapping, applying tension to the wrap only to obtain desired compression. Always unwind more Coban LF self-adherent wrap from the roll before making a wrap so that the product is not applied with too much tension. See Figure 2.
4. When application is complete, tear off excess Coban LF self-adherent wrap. Secure the end of the application by gently pressing.

Storage/Shelf Life
This product should be stored at room temperature. Avoid excessive heat and humidity. For best performance, store Coban LF self-adherent wrap in its individual package until use. For shelf life, refer to the date printed on each box.

How supplied
Supplied in boxes of individually packaged rolls. All rolls of Coban LF self-adherent wrap are 5 yards (4.5m) long stretched, except for 2084L which is 6.5 yards (6m) stretched.
If you have any questions or comments, please contact the 3M Health Care Customer Helpline at 1-800-228-3957.

Explanation of Symbols
- This product and package do not contain natural rubber latex
- Hand-tearable no scissors needed
- Caution, see instructions for use
- Do not reuse
- Use by date
- Batch code
- Manufacturer
- Stretched length
- Unstretched length
